

ThermoWorks

Thermapen® ONE

The World's First ONE-Second Instant-Read

NEW Full Readings in ONE Second

Powered by new advances in thermodynamics, Thermapen ONE delivers a blistering 1-second response time.

NEW Accurate To Half A Degree

The accuracy spec has also improved to an industry-leading degree.

Motion-Sensing Sleep & Wake Mode

Ready to use when you pick it up, and turns off when you set it down.

NEW Brighter, Ultra-Responsive Automated Backlight

Easier to read in dim light and faster response time to ambient light changes.

NEW 5-Year Warranty

Trust Thermapen ONE to outlast the "competition" with years to spare.

Waterproof to IP67

Durable build and enhanced design to keep out water and dust.

Biomaster Silver Ion Technology

A silver-based additive providing maximum antimicrobial protection for the life of the product.

NEW Easy-to-Access Battery Compartment

It's even easier to change your user settings.

NIST-Traceable Calibration Certificate

The performance of your Thermapen ONE is verified traceable to national standards.

Patented Auto-Rotating Display

Always reads right-side-up, no matter how you're holding it in either hand.
